

Outlook Express for POP account (Imap settings below)

Open Outlook Express.

Click the **Tools** menu, and select **Accounts...**

Click the Mail tab, select your POP account and click **Properties**.

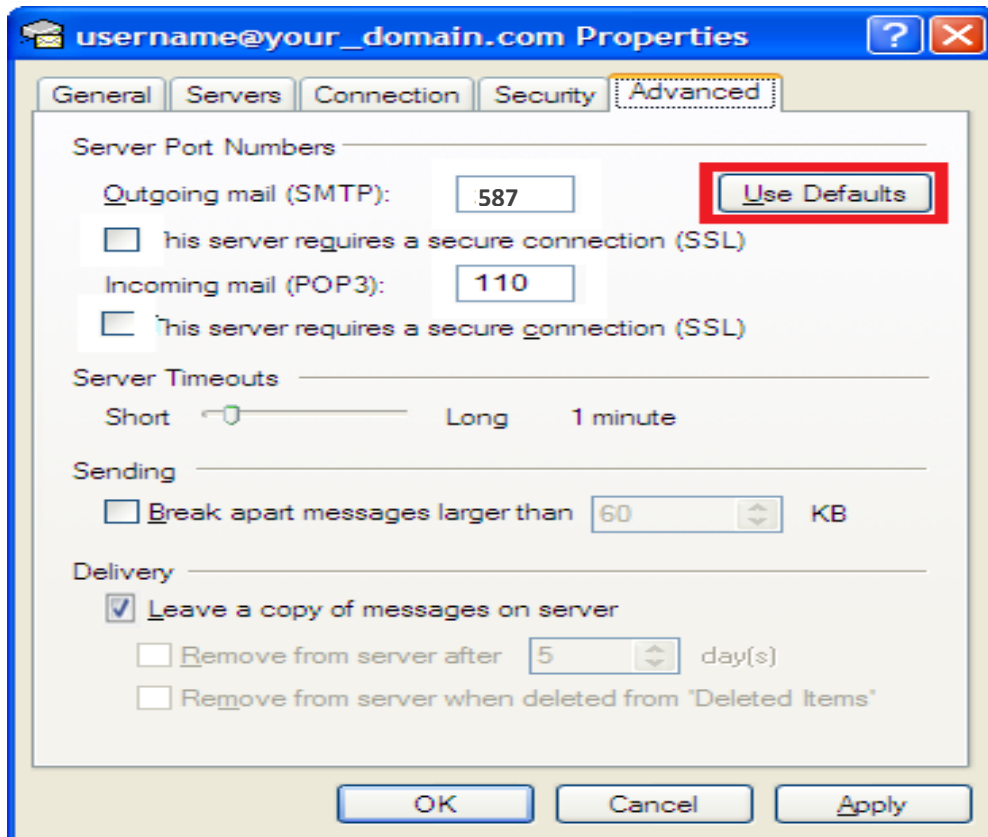

Click on the **Servers** Tab and change the following fields:

Incoming mail (POP3): mail.bnin.net

Outgoing mail (SMTP): mail.bnin.net

Verify **My server requires authentication** is checked

Click the **Advanced** tab and click the **Use Defaults** button

Verify that the settings were reset to the following:

Outgoing mail (SMTP): 587 (This server requires a secure connection (SSL) should NOT be checked)

Incoming mail (POP3): 110 (This server requires a secure connection (SSL) should NOT be checked)

Click **OK**.

IMAP Accounts

Follow the same instructions using the following ports:

Incoming: 143

Outgoing: 587
